**EXECUTIVE SUMMARY**

The sewer combination cleaner Vactor in our fleet is used to break blockages and clean debris from storm sewer pipes and culverts. The debris is vacuumed into the body tank, where solid debris settles on the bottom of the tank. The tank is then decanted to pour the water back into the storm sewer, and the debris that remains is cleaned out at an appropriate facility.

The interior bottom of the debris body tank is eroding extensively where a nozzle sprays water during the cleaning process to loosen debris stuck on the bottom of the tank. Several spots that have already worn through the steel tank have plates welded on them, and one of the plates itself is already eroding noticeably. The corrosion on the rest of the interior bottom is thinning the tank body in several areas. If the erosion and corrosion continue, no further plate steel can be welded onto the tank.

A replacement tank with rear door is needed to keep the Vactor in daily service. This Vactor and the one in the Water and Sewer Maintenance Department serve as backup for each other. When one is in disrepair, the other department must depend on their counterpart for assistance, which creates a backlog of work in both departments.

This request is to purchase and install a new Vactor debris body, and was included in the fiscal year 2012 budget. Cost to replace the debris body is \$88,850, while a new Vactor is more than \$300,000. **The work will be completed by Kinloch, who is the sole distributor/service provider for Vactor in Texas.** Delivery time for the equipment is approximately 10 to 12 weeks. This purchase will be funded via a future lease-purchase agreement and Council has already approved an intent to reimburse from future lease proceeds.

#### **RECOMMENDED ACTION**

Approve the expenditure of \$88,850.00 to replace the Vactor debris body.

**RESOLUTION NO. R2011-144**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PEARLAND,  
TEXAS, AUTHORIZING THE PURCHASE OF A DEBRIS BODY FOR A  
VACTOR TRUCK.**

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PEARLAND, TEXAS:**

**Section 1.** That Kinloch Equipment & Supply, Inc. is a sole source provider of debris bodies for Vactor, Inc.

**Section 2.** That the City Council hereby authorizes the purchase of a debris body from Kinloch Equipment & Supply, Inc., in the amount of \$88,850.00.
