The vote was 4-0. The minutes of January 4, 2010 were approved with correction.

NEW BUSINESS

CONSIDERATION & POSSIBLE ACTION – FINAL PLAT OF SAVANNAH MEADOWS SECTION SEVEN

Plans & Plat Administrator Richard Keller read the staff report stating there were no outstanding items.

P&Z Commissioner Susan Sherrouse made the motion to approve, and P&Z Vice-Chairperson Ron Capehart seconded.

The vote was 4-0. The Final Plat of Savannah Meadows Section Seven was approved.

CONSIDERATION & POSSIBLE ACTION – ZONE CHANGE NO. 2009-15Z

P&Z Vice-Chairperson Ron Capehart made the motion to approve, and P&Z Commissioner Susan Sherrouse seconded.

Senior Planner Angela Gantuah read the staff report, and Planning Director Lata Krishnarao clarified several points brought up in the public hearing. Staff's recommendation was said to be unclear. Staff is in favor of the use. Ms. Krishnarao stated that in the beginning, staff looked at the transition from Residential (R-1) to Commercial (C) and that any kind of traditional zoning category would be difficult. Staff felt a Planned Development was the best way to go. Ms. Krishnarao added that a Senior Living Facility is one of the quieter uses; and, clarified what spot zoning was, and that a PD is not considered spot zoning.

P&Z Chairperson Jerry Koza, Jr. stated that he finds it hard to see this property being developed as Residential (R-1).

P&Z Commissioner Henry Fuertes stated that this PD is a less intensive use and added that he likes the PD, but does have an issue with the parking.

P&Z Commissioner Susan Sherrouse stated she also has concerns with the parking, and the traffic issue.

Mr. Ron Jackson of Curry Architect stated that he hears and respects all the concerns, and request that this item be tabled. This would allow them time to get with the traffic engineer, work out the parking issues, and address the pavement for emergency vehicles.

Deputy City Attorney Nghiem Doan stated that if the Commission is considering tabling this item, he would recommend the item be postponed instead, with a date set to bring it back before the commission.

Question arose of whether the neighbors would be notified again, and Senior Planner Gantuah stated they would not. She added that since November, there have been three (3) mailings, three (3) legal notices posted in the newspaper, and the notification sign has been in place this entire time.

P&Z Commissioner Henry Fuertes made a motion to postpone Zone Change No. 2009-15Z until the February 15, 2010 meeting, and P&Z Vice-Chairperson seconded.

The vote was 4-0. Zone Change No. 2009-15Z was postponed until February 15, 2010.

DISCUSSION ITEM

Planning Director Lata Krishnarao addressed the P&Z Commissioners Questionnaire responses.

Ms. Krishnarao also discussed that the Vicinity map would be at a scale of 1"-1000', and the Thoroughfare Plan would be added to it.

Planning Office Coordinator Judy Krajca discussed the FTP site, and stated she checked with the IT department about the Commission downloading the files faster and easier. For now, individual folders will be posted and the items within the folder will have to be downloaded individual.

Next P&Z meeting is scheduled for February 1, 2010, and will include a "Slow Poke" report on tabled items.

Planning Director Lata Krishnarao spoke briefly about the upcoming Future Land Use Plan Presentations.

ADJOURNMENT

JOINT PUBLIC HEARING AGENDA ITEM MEETING OF JANUARY 18, 2010

Conditional Use Permit No. CUP 2009-19

A request of Clear Wireless, LLC., applicant for PMSV Broadway West Storage, owners, for a conditional use permit to allow the addition of a cellular antenna in the General Commercial (GC) Zoning District, on the following described property, to wit:

Legal Description: Approximately 8.870 acres (386,368 square feet) more or less being that same certain tract conveyed from Eastgroup-LNH Corporation to Palms Properties, L.L.C. as recorded in file No. 96-021151, Official Records of Brazoria County, Texas, same being out of Lot 20, Allison Richey Gulf Coast Home Company's Suburban Gardens Subdivision, as recorded in Volume 2, Page 107, Plat Records of Brazoria County, Texas, said 8.870 Acre Tract being situated in the H.T. & B. R.R. Co. Survey, Section 85, Abstract No. 304, in Brazoria County, Texas.

General Location: Located at 2850 Wooten Road, Pearland TX

APPROVAL PROCESS: After this Joint Public Hearing, the requested zone change application will be considered as follows:

Planning and Zoning Commission: February 15, 2010*

City Council for First and Only Reading: February 22,, 2010*

(*dates subject to change if item is tabled)

SUMMARY: The applicant is requesting approval of a Conditional Use Permit that would allow the co-location of an antenna on an existing 145 foot tower. The Co-location of the antenna is approximately 115 feet high with the proposed installation of a 7' X 7' (49 square feet) equipment cabinet that will be mounted on an elevated platform instead of a concrete slab. The applicant also proposes telephone and electric utilities for the ground equipment as stated in the letter of intent.

Cellular Towers in General Commercial (GC) Zoning District require a conditional use permit. This site does not have a conditional use permit in place. Once this CUP is approved, future additions of antenna or co-locations would not require additional zoning approval.

The existing site is approximately a 386,368 square foot lot with chain link perimeter fencing surrounding a 3,000 square foot area where the tower is located. There are several accessory buildings surrounding the existing 145 foot cellular communications tower within the fenced area. Currently, there is not any landscaping in this area, as it is located behind a small strip center to the south, off of Broadway. A large detention pond is located to the north of the cell tower, and a smaller detention pond is located to the east portion of the property off of Wooten Rd.

SURROUNDING ZONING AND LAND USES:

	<u>Zoning</u>	<u>Land Use</u>
North	Neighborhood Services (NS)	Detention Pond
South	General Business (GB)	Strip Mall
East	Neighborhood Services (NS)	Detention Pond
West	Extra Territorial Jurisdiction (ETJ)	Wal-Mart

CONFORMANCE TO THE UNIFIED DEVELOPMENT CODE (UDC): The subject property is currently zoned as General Commercial (GC). The minimum lot size for the GC district is 22,500 square feet, the minimum lot width is 150 feet, and the minimum lot depth is 125 feet. The subject property meets these minimum requirements, as the property is approximately 8.870 acres. This is a flag shaped lot with an access off of Broadway. The applicant will be required to comply with all other requirements of the Unified Development Code.

PLATTING STATUS: The Broadway West Plat was approved on March 1, 1999 and later recorded on May 14, 1999. The property owner then sold approximately 3,000 square feet of the lot via warranty deed to GTP Acquisition Partners II, LLC. on September 30, 2005 without access to this lot.

CONFORMANCE TO THE COMPREHENSIVE PLAN: The Comprehensive Plan (2004 update adopted on July 26, 2004) recommends “Business Park” for the subject property and the surrounding properties. The Comprehensive Plan further indicates that the appropriate uses for that zoning district are Nonresidential-Large office complex/campuses and retail development. The area was zoned in accordance with the 2004 update; therefore the current General Commercial (GC) Zone conforms to the Comprehensive Plan.

CONFORMANCE TO THE THOROUGHFARE PLAN: The subject property has frontage on Broadway, a major thoroughfare with an ultimate right-of-way of 120 feet. The applicant has had the property platted, but it may be necessary to replat and all necessary dedications can be made at the time of platting.

AVAILABILITY OF UTILITIES: The subject parcel is served by public water and sewer.

IMPACT ON EXISTING AND FUTURE DEVELOPMENT: The proposed conditional use permit for addition of an antenna or co-location of an antenna should not have a significant impact on the surrounding properties. AT &T and T-Mobile are currently operating at this existing cellular communications tower. Access to this cellular communications tower is through a driveway off of Broadway.

An electrical permit was approved and issued to AT&T at 2850 Wooten Rd on July 23, 2008 and a permit for a commercial addition/alteration was approved for T-Mobile at 2854 Wooten Rd. on January 16, 2008. These two applications for permits were not forwarded to the Planning Department for review and were subsequently approved. In addition, there is an approved special use permit for mini storage located at 10401 Broadway Ord. 509-555 adjacent to the cellular tower.

The Broadway West Plat was approved on March 1, 1999 and then recorded on May 14, 1999. The property owner then sold approximately 3,000 square feet of the lot via warranty deed to GTP Acquisition Partners II, LLC. on September 30, 2005. Although the ground equipment is not screened and there is no landscaping, due to the location behind the strip mall and mini-storage, the cellular tower cannot be seen from Broadway.

ADDITIONAL COMMENTS: No additional comments received.

SITE PLAN CONSIDERATIONS: A site plan was submitted showing the existing cell tower and existing antenna. Engineering calculations have also been submitted showing that the addition of an antenna on the existing tower will not cause the existing cellular tower to fail.

PUBLIC NOTIFICATION: Public notice/comment forms were mailed to property owners within 200 feet of the subject property under consideration. A legal notice of public hearing was published in the local newspaper, and a Zoning Sign was placed on the subject property.

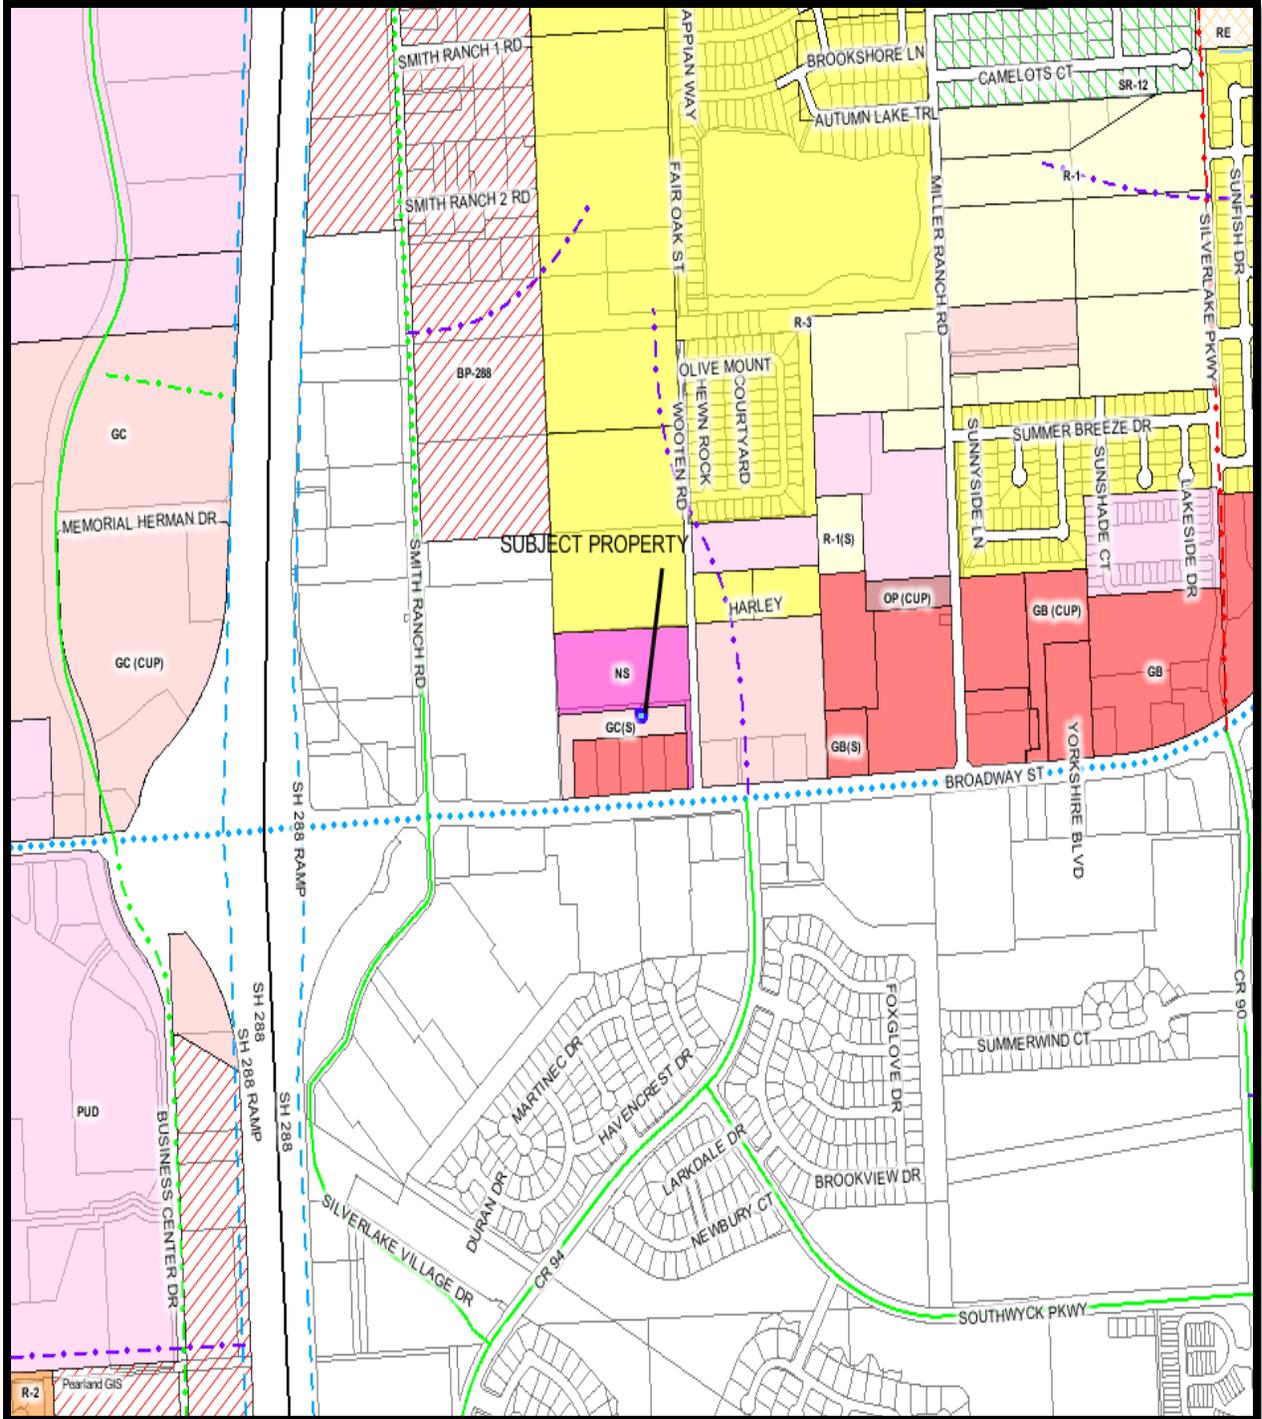

OPPOSITION TO OR SUPPORT OF PROPOSED REQUEST: Staff has not received any comments either in opposition to or in support of the proposed zone change request.

STAFF RECOMMENDATION: Staff recommends approval of the Conditional Use Permit, for the following reasons:

1. The proposed facility should not have a significant negative impact on the surrounding properties and developments.
2. The proposed co-location of antenna is encouraged in the Unified Development Code with an approved Conditional Use Permit.
3. The proposed use with an approved Conditional Use Permit would be in conformance with the Comprehensive Plan.

RE: Letter of Intent for CUP Application

Ms. Gantuah:

Powder River Development has been contracted by Clear Wireless, LLC to manage the development of its network in the Houston area. Based on the PreDevelopment Meeting we had on 12-16-2009, I am filing for a Conditional Use Permit (CUP) for co-locating antennas and related ground equipment on an existing tower located at 2850 Wooten Rd., Pearland, TX 77584.

Our ground space is limited to a 7'x7' area with several small equipment cabinets, mounted on an elevated platform instead of a concrete slab. We will be adding one additional array of antennas to the tower. The only utilities involved in this proposal are telephone and electricity.

Our current proposal does not include:

- Increased tower height
- Additional ground space to the compound
- Impervious ground cover
- Removal of any trees

If you have any questions, I can be reached at 713-261-5357.

Sincerely,

A handwritten signature in black ink that reads "Blake Griggs".

INTRODUCTION

We have completed the structural analysis for the existing 190 ft. self support tower located in Brazoria County (2850 A Wooten Road, Pearland), TX. The objective of the analysis is to determine if the existing self support tower design is in conformance / compliance with the current codes and standards for the proposed equipment installation.

TSTower written by TowerSoft was utilized in performing the analysis. This program is a commercially available software program which was used to create a non-linear three-dimensional beam model and calculate member stresses for various loading conditions.

DESCRIPTION OF STRUCTURE

The existing structure is a 190 ft. self support tower originally manufactured by Allied Tower, Vinita, OK. The existing structure consists of ten (10) tower sections with solid round legs and angle bracing.

Original tower drawings provided by Allied Tower were used to model the tower steel. (Allied Tower Job No. 11728, April 22, 1999) The tower legs are 50 ksi steel, the tower bracing is 36 ksi steel and the bolts are A325X.

The tower, for the purpose of analysis, is considered to be in good condition with no defects.

DESIGN PARAMETERS

- Standard:	ANSI/TIA-222-F-1996
- Basic Wind Speed:	100 mph (fastest mile) 120 mph (3-sec gust)
- Serviceability Wind Speed:	50 mph (fastest mile)
- Basic Wind Speed with Ice:	N/A
- Design Ice Thickness:	0.0 (inch)
- Allowable Stress Increase:	1/3 for wind loading conditions

Code Response 1 Tower Ordinance

Chapter 2 – Division 5: Telecommunications Towers & Antennas

Section 2.5.5.2 Conditional Use Permit Required

- (e) **Application & Requirements.** An application for a conditional use permit for a tower, antenna, or use of an alternative tower structure must be made to the Planning Department. An application will not be considered until it is complete. A complete application must contain the following:
- (1) An inventory of the applicant's existing towers that are either within the City or within one mile of the corporate limits, specifying the location, height, and design of each tower. The Planning Department may share the information with other applicants for a conditional use permit under this article.
APPLICANT DOES NOT HAVE ANY EXISTING TOWERS WITHIN THE CITY OR WITHIN ONE MILE. CLEARWIRE IS NEW TO THE HOUSTON MARKET AND DOES NOT CURRENTLY HAVE AN OPERATING NETWORK IN THIS AREA.
 - (2) Site plans to scale specifying the location of tower(s), transmission building and other accessory uses, street access, parking, fences, landscaped areas, and adjacent land uses.
ATTACHED TO CUP APPLICATION AS EXHIBIT E.
 - (3) A report from a professional structural engineer licensed in the State of Texas documenting the following:
 - a. Tower height and design, showing a cross-section of the tower structure.
 - b. Total anticipated capacity of the tower structure, including the number and types of antennas which can be accommodated.
ATTACHED AS SUPPLEMENT D. THE TOWER IS RATED AT 105%, WHICH IS DEEMED TO BE STRUCTURALLY ACCEPTABLE AS DEFINED BY THE CITY OF PEARLAND'S BUILDING CODE.
 - (4) A letter of intent to lease excess space on the tower and to lease additional excess land on the tower site when the shared use potential of the tower is absorbed, if structurally and technically possible.
CLEARWIRE IS SUBLEASING SPACE AND IS NOT THE TOWER OWNER. CLEARWIRE HAS NO ABILITY TO CONTROL ANY ADDITIONAL LEASE AREAS. THE GROUND SPACE AND TOWER STRUCTURE ARE APPROACHING CAPACITY. THERE ARE CURRENTLY 6 TENANTS AT THIS LOCATION. CLEARWIRE WOULD BE THE 7TH.
 - (5) Each applicant must make a good faith effort to substantially demonstrate that no existing towers could accommodate the applicant's proposed antenna by doing the following:
CLEARWIRE IS COLLOCATING ON AN EXISTING TOWER AND IS NOT BUILDING A NEW TOWER.
 - (6) Any other information which may be requested by the Planning Department to fully evaluate and review the application and the potential impact of a proposed tower or antenna.

Section 2.5.5.6 Shared Use

- (a) **No Permit Required.** To encourage shared use of towers, no building permit or conditional use permit is required for the addition of antennas to an existing tower so long as the height of the tower or structure on which the antenna is placed is not increased and the requirements of this article are met.
IN SUPPORT OF THE CITY'S INTENT TO PREVENT THE PROLIFERATION OF UNNECESSARY TOWERS, CLEARWIRE HAS SOUGHT TO UTILIZE AS MANY EXISTING TOWERS AND STRUCTURES AS POSSIBLE. ALL OF THE PROPOSED SITES IN THE CITY LIMITS WILL BE COLLOCATIONS. THE HEIGHT OF THE TOWER IS NOT BEING INCREASED, NOR IS THE EXISTING SITE BEING EXPANDED.

Section 2.5.5.8 Pre-Existing Towers & Non-Conforming Uses.

- (a) **Operative Towers.** All communications towers that are operative prior to the effective date of this UDC and that do not comply wholly with the requirements of this division are allowed to continue their present usage as a nonconforming use and are treated as a non-conforming use in accordance with Chapter 2, Article 7 of this UDC. Routine maintenance is permitted on the existing towers. Construction other than routine maintenance on an existing communication tower must comply with the requirements of this UDC.

CLEARWIRE'S INSTALLATION WILL FULLY COMPLY WITH THE RULES AND REGULATIONS AS DEFINED IN THE UDC.
