

CITY OF PEARLAND PLANNING & ZONING

TO: Planning and Zoning Commission

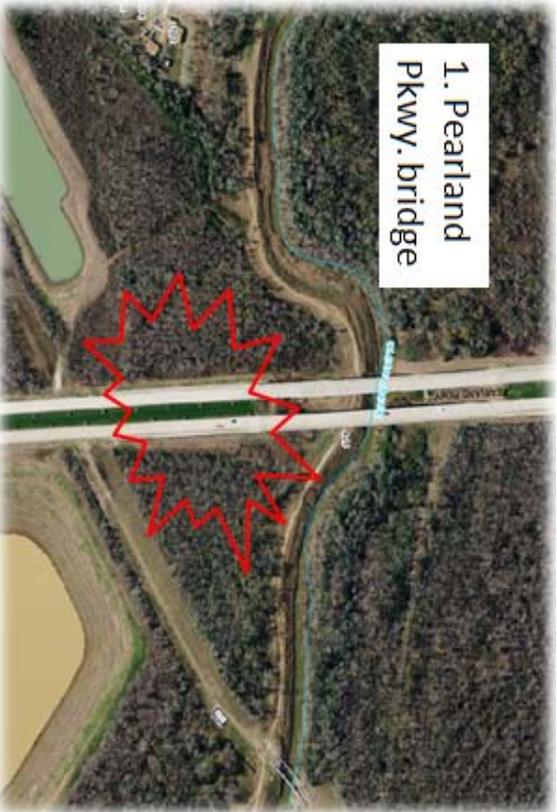

FROM: Ian Clowes, Planner I

DATE: September 9, 2010

SUBJECT: Update on Project Stars Monument

We will be meeting Monday, September 13, 2010 to see the final three options for the project stars monument. At that time we would like a vote to be held so that staff can move forward obtaining approval from the City Council. Chris McBride from Knudson Services will once again join us to present the three options and answer any questions that may come up.

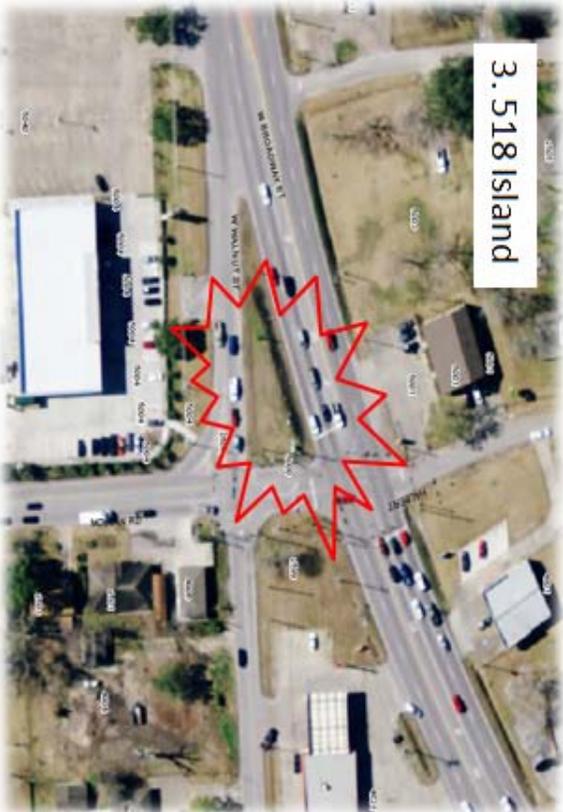

At the previous meeting held on August 30, 2010 we decided on 3 sites, shown below, and decided on a vertical tower somewhere in the vicinity of forty feet (40') tall. P&Z needs to choose one of the three sites, with one alternative, and finalize a preliminary design for the tower.

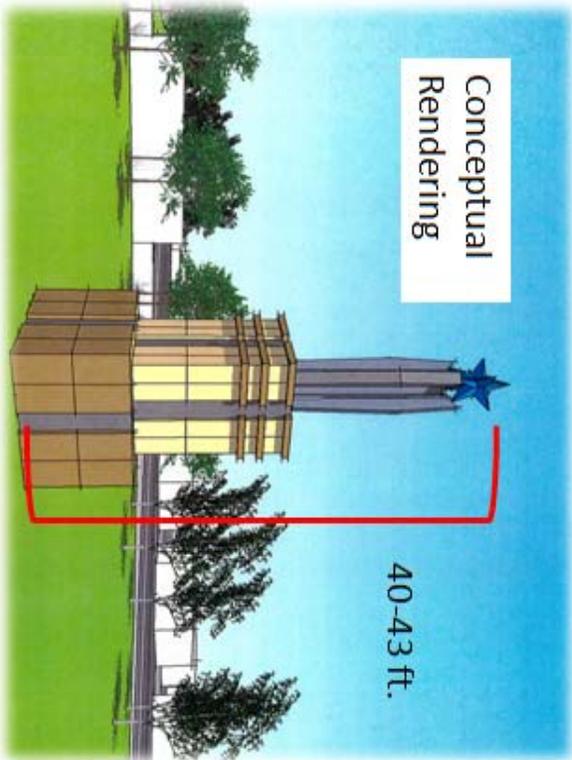

1. Pearland
Pkwy. bridge

2. Pearland
Pkwy. triangle

3. 518 Island
