STAFF – Alan Mueller, D.K., Richard Keller

Others – Butch Babineaux + Gary Mitchell & Wilbur Smith Associates.

Service Areas, Land Use Assumptions, Trip Generation, CIP.

A.M. provided some brief opening comments. He then introduced Butch Bobinecuk and Gary Mitchell, both with Wilbur Smith Assoc.

Gary Mitchell then led a presentation that covered the report prepared by Wilbur Smith Assoc. titled Roadway Impact Fee Study – Draft Report.

During Mr. Mitchell's presentation, there was discussion between the Commission, staff, and the consultants.

A.M. informed the Commission that they should now provide ~~their~~ their comments regarding the Draft Report.

A.M. will send out a memo itemizing the Commission's comments. The Commission should vote on an approval of their written comments at an upcoming meeting.

Re: Traffic Impact Fees

As you know, you have been appointed by the City Council to serve as the impact fee advisory committee and we have previously held a joint workshop with City Council on this topic. Attached is the draft traffic impact fee report for your review. Representatives from the consultant team will be at the meeting on May 10 to review the study and answer questions.

The impact fee statute states that the advisory committee "shall file its written comments on the proposed impact fees". Your comments may be related to the land use assumptions, capital improvement plan, and/or the proposed fee. You are not required to make a specific recommendation; however, you may make do so if there is a consensus of the members. We need your comments by **May 28, 2004.**

The City Council will conduct a public hearing on the land use assumptions and capital improvement plan on June 7; a public hearing on the impact fee is planned for July 19. If City Council chooses to move forward, adoption should take place in August with an effective date most likely to be October 1, 2004. The advisory committee is not required to attend the public hearings, but you may do so if you so choose.

You may recall at the workshop that we discussed a "maximum" fee scenario and a "reduced" fee scenario. The draft report contains alternative page sets for each of these options. The affected pages are 4-4 through 4-6 and 5-1 through 5-8; the replacement pages for the "reduced" scenario are paper-clipped together at the end of Section 5. Depending on the comments of the Commission and final decision by the City Council, the selected scenario will be included in the final report.

City staff and/or the consulting team will assist with compiling your comments for your final consideration before May 28. Additional review sessions can be scheduled as needed.

Please contact me if you have any questions.
