(J) Todd FYI for:

Rgheim placed on agenda on a concern he had. On last
JPH meetin w/ app. of rezoning, turned down because of ownership. Point he wants ownership of property is extremely important, but we have a procedure were we ascertain ownership by civing official source. ~~Author~~ The application had that infortion. Showed nothing ~~to rise to the level~~ to prove to us.

Ray I believe as a group was working from a previous disapproval because of clear title

Russ - Clear title issue. Tobin did state their were two owners. We may legally correct and morally wrong. ~~[illegible]~~

Todd in same aspect could be flipped
Russ - they need to iron out before ~~Nghem~~ they come to meeting.

Todd concern stay in periometers of what we can approve.

Don - unique situation, figure out system and feel the cities insecurities.

~~Rags~~ - warm fuzzy feeling from the city.

Russ - ~~the city begins~~ ~~[illegible]~~ we need morrally correct solution when we don't have correct title issue.

Russ - what would be the solution

Nghem - how much information to back do you need.

Russ - what is wrong w/ the city labeling until they produce documents.

Nghiem - There is a forum

Don - if el el recognise and feel uncertain on a bench, that may be all el ~~what~~ need to not vote or turn down the vote.

Nghiem - if we start straying on zone changes then we are going outside our scope of a commission. act on what information we have.

Todd - In the future deny or approve and let the courts act on the ownership.

Nghiem - Yes, that is what el would recommend as legal counsel.

Ruby - we have to go w/ county records. And we have to fix that as homeowner. if there wrong.

Sheryl - el think its a learning tool. at that point we will turn to legal counsel.

Todd next time we will adjourn for a few minutes and reconvin.

adjourned @ 7:26
