V. Staff

Klaus - glad to see concerns w/ the make up of committee -
I was overruled stating that we need more resident represent.

Jetens - thank you for coming out.

Woody - on green space -
Com. Harris is right on his comments.
① city taxes didn't go up. The prop valuation went up. city had nothing to do w/ it.

~~we~~ apprec. everyone coming out.

Larry - concur w/ every said. far from being done. hopefully more prop owners will be on committee.
one way to compromise wld be to change the committee.

Charles - regardless of turn out. grew up west of Cullen. been long enough to know Dead Mans Curve.
wld like to leave w/ you
1,000 vehicles pass by my road. take good w/ bad. regardless. people up here are tryn to base a decision on you. ask for your patience.

Woody - since been on CC last year.
heard a lot of comments about when + how
people moved out.
hoping whatever changes, people will
move here in 2010 for the same reason
they moved out in 1937.

Marcott - fees on green space.

Tobin - identical to what is on exis plan.
not
every creek in P. calls for linear park
in Master Plan.
not different from whats exis on Comp. Plan.

Woody - parking?

Tobin - only control whats in our juridic.
maybe old bridges to connect w/ other park

Marcott - flood plain?

Marcott - ques. about taking the land.

Tobin - this plan is not proposing to take anyone's land

Marcott - nothing will be done for 30 years.

Tobin - shld be painted if someone comes in for Res or Com & we refer to the plan

Marcott - Woody - concerned about process. & people on committee.

Tobin - Steering Com guides plan
The intent is to bring public to PH & then send back to Committee for reevaluation.
by far ready to be approved based on comments.

Discussion ensued reg. formation of Steering Com. bt. Mr. Maples & Marcott.

Woody - several comments made on addresses. can we get more accurate.

Tobin - its our problem.
